

Technical Data Sheet

LUCRAMUL® AG 489

Description

LUCRAMUL® AG 489 is a multipurpose non-ionic surfactant blend, recommended as co-dispersant and wetting agent.

Technical Data

Chemical description	Proprietary non-ionic surfactant blend
Ionicity	Non-ionic
Active content [%]	100%
Form supplied	Liquid
Appearance	Clear to opaque, colourless to yellow
Density at 23°C [g/cm ³]	~ 1.02
Viscosity at 23°C [mPas]	~ 400
pH value [5% in water]	5.0 – 7.0
Cloud point [°C]	~ 60 (1% in 10% BDG)
Solid content [%]	Min. 98

The above data are typical product values and not necessarily specified. For further details please refer to the relevant product specification.

Properties and Application Fields

LUCRAMUL® AG 489 is for various industrial applications as for instance agrochemical formulations as a co-dispersant and wetting agent. Depending on the application it can also be used as an emulsifier. It is free of water and due to its relatively low viscosity easy to handle and to apply.

Dosage and Processing

The optimal dosage depends on various parameters (e.g. application, formulation) and has to be determined by tests.

LUCRAMUL® AG 489

Storage, Handling and Safety

LUCRAMUL® AG 489 has a shelf life of 12 months from delivery ex warehouse LEVACO in original closed containers and when stored under proper conditions. The product is slightly cloudy and has a clearing temperature around 26 °C. When stored at temperatures below stir well before use (as phase separation might occur during long term storage).

For further information on safety, storage etc. please refer to the safety data sheet of **LUCRAMUL® AG 489** available at our company website www.levaco.com.

Packaging

The product is available in the following packaging:

200 kg drum

1000 kg IBC

Road Tanker
